

Maya Chen

Junior Frontend Developer

maya.chen.dev@example.com +44 7700 900142 London, UK github.com/mayacdev mayachen.dev

SUMMARY

Frontend developer with one year of professional experience building responsive React applications. Comfortable across the modern JavaScript ecosystem and keen to grow into a full-stack role. Strong eye for UI detail and accessibility.

EXPERIENCE

Junior Frontend Developer — Brightfold Studio

2024 - Present

London, UK

- Built and maintained marketing sites and a client dashboard in React and TypeScript.
- Improved Lighthouse performance scores from 62 to 94 on the company's flagship site.
- Collaborated with two designers to ship a component library used across four projects.

Web Development Intern — Loop Media

Summer 2023

Remote

- Converted Figma designs into responsive HTML/CSS components.
- Fixed 30+ frontend bugs and wrote the team's first set of accessibility guidelines.

PROJECTS

SplitSmart — Expense Sharing App

- React, Vite, Supabase. A bill-splitting app for shared households; 200+ users.

DevQuotes API

- Node/Express REST API serving developer quotes; documented with Swagger.
